

Control Your Energy Use and Costs.

MyEnergyMyWay™ is a public service program designed to help you take an active role in understanding and controlling your energy use and costs. It's a free program brought to you as a public service by **NOPEC**, a governmental nonprofit, pro-consumer organization dedicated to lowering utility costs in 174 communities across Northeast Ohio.

NOPEC is a governmental nonprofit, pro-consumer lobbying force dedicated to bringing lower utility costs to families and businesses in northeast Ohio. NOPEC is the largest governmental aggregation in the nation. We are overseen by unpaid directors from each of the 10 counties we serve in Northeast Ohio.

Because we have no stockholders, our mission is simple and uncomplicated: We are here to bring the lowest cost energy we can to the residents and small businesses of Northeast Ohio.

How Does it Work?

Anyone can participate in **MyEnergyMyWay™**, a free program offered as a public service to NOPEC members.

To participate, simply register now at **NOPECinfo.org**. Once registered, you'll receive a welcome email with an invitation to start taking advantage of energy-saving and money-saving tips and tools.

It Goes With You. Access Anywhere.

Control your energy consumption from anywhere, with your mobile device. Adjust your window air conditioner from work and turn the lights on or off for your pets. When you join **MyEnergyMyWay™** we show you how to take control of your energy costs and consumption.

Register for **MyEnergyMyWay™** and be the first in your community to:

- Compare your energy use with friends and neighbors.
- Reduce your bills through energy-saving tips and rebates.
- Earn discount coupons and rewards.
- Shop technologies that allow you to control your energy consumption.
