SNOW PLOW PERMITS SURETY BONDS

All companies and/or individuals obtaining a City of South Euclid snowplow permit must produce a surety bond that covers that company or individual. If at the time of application, the surety bond covers only a portion of the snowplow season, which is the date of issuance through May 15, then said company or individual will submit a current surety bond when the previous bond expires as soon as possible. If a current bond is not on file in the South Euclid Police Department within 10 days of expiration, the permit will be subject to criminal penalties pursuant to South Euclid Codified Ordinance 1143.01.

I hereby agree to the above terms and agree to submit a current surety bond if the one on file, at time of application, expires prior to the conclusion of the current snowplow season.
