

**Subject:** Monthly SCM Tips, Toolbox Talk, Sensible Salting Workshops and More

Hello Euclid Creek Technical Committee Members,

Happy August!

### **Watershed Plan Updates**

This year the Workplan calls for updates to the watershed action plan and as part of those updates I am tasked with meeting with community representatives to map and list community restoration and protection opportunities identified in the watershed. **Please contact me with any locations/opportunities you have in your community** that you would like considered and we can coordinate a meeting if needed. I'd like to have this work done before our Summit in October.

### **Monthly SCM Tips**

Cuyahoga SWCD has developed a series of **monthly tips for maintaining Stormwater Control Measures (SCMs)** specific to the type of SCM you have. These tips are emailed to SCM owners that partner with Cuyahoga SWCD for their Post-Construction SCM inspections. Please see links to August tips below, and if you would like to sign up to receive these tips directly, email [cregener@cuyahogaswcd.org](mailto:cregener@cuyahogaswcd.org) and let Carla know which SCM you are interested in.

### **SENSIBLE SALTING WORKSHOPS**

Save the date municipal workers, road/service departments, and those in the business of snow and ice removal.

The Northeast Ohio Public Involvement Public Education (NEO PIPE) workgroup is collaborating with other agencies to host two regional road salting workshops.

Though critical to our safety, road salt poses a unique challenge to both our waterways and communities. These workshop will provide a forum for information, resources, and successes to be shared.

These free workshops will assist Phase 2 communities in meeting their requirement and is opened to anyone interested in examining the impacts of traditional road salting and potential strategies/alternatives to reduce salt's burden to our ecosystems and budgets. Uniquely designed as a "peer to peer" program, speakers from various Northeastern Ohio communities will discuss different methods, experiences, and challenges of salt management.

\*Helps meet MCM 1 (Public Education) and MCM 6 (Pollution Prevention & Good Housekeeping)

Pick a date and register today.

*September 11, 2018*

8:30am – 11:30am

Centerville Mills Dining Hall

8558 Crackel Road

Chagrin Falls, OH 44023

Register here: <https://www.eventbrite.com/e/sensible-salting-workshop-tickets-48213520939>

*October 11, 2018*

8:00am – 11:00am

Amherst Beaver Creek Metro Park Reservation

913 N. Lake St.

Amherst, OH 44001

Registration coming soon – if you are interested, send an email to [aroskilly@cuyahogawcd.org](mailto:aroskilly@cuyahogawcd.org) and she will get you on the list. Or keep an eye on the <https://www.lakeeriestartshere.org/> website.

### **Ethics & Engineering Professional Development Workshop**

Tinker's Creek Watershed Partners is hosting an Engineering Professional Development workshop to offer engineers 6 CPDs including 2 ethics CPDs on September 14, 2018 at the Bertram Inn in Aurora, Ohio. Cost is \$75.00. Lunch and refreshments provided.

#### [Registration & Agenda](#)

Thanks and have a great week,  
Elizabeth
