Addendum - SERC Mission Statement

From Mike: Sandy asked me for the Recycling Committee's Mission statement. I couldn't find one. The closest I came to one was from our Articles of Incorporation. So, here's my first attempt at one. Please feel free to suggest improvements:

The South Euclid Recycling Committee's mission is to improve recycling, reusability, sustainability and ecological practices in the region, through educational and other methods.

Melanie Kutnick - emailed approval of above / if no other found

Suggestion from AMY"

Maybe just change:

The South Euclid Recycling Committee's MISSION IS TO improve recycling, reusability, sustainability and ecological practices in the region, through educational and other methods.

TO....

The South Euclid Recycling Committee STRIVES TO improve recycling, reusability, AND ALL ENVIRONMENTAL practices in the region, through ITS OWN GROUP MEETINGS, AND ATTENDANCE AT PUBLIC EVENTS.

Here is what our By-Laws say: from Mary K.:

ARTICLE III. PURPOSE

The purposes of the Committee shall be:

- A. to promote recycling within the City of South Euclid,
- B. to educate and advise South Euclid residents, city officials, businesses, and students about effective practices to reduce consumption and increase reuse, and recycle materials and items, thus reducing the amount of waste generated within the City of South Euclid and
- C. to foster practices within the City of South Euclid which sustain and improve the environment.

Here is a suggestion from Judy:

If using most of the wording from the bylaws how about...

To educate and advise the South Euclid community about effective practices to reduce consumption and increase reuse, along with how to properly recycle.
